

CNS in Neuroscience at The Helsinki University Central Hospital

Jaana Kotila CNS and Johanna Martin CNS in Neuroscience Nursing

CLINICAL PRACTICE

Evaluation of RN competences with the NCS and evaluation of students feedback of clinical environment from the CLES

CNS provides bedside teaching & education being based on evidence based practice

Clinics vision is to give the best specialist healthcare in a timely, flexible and customer-orientated manner.

RESEARCH

Patient, Nursing and Multidisciplinary team education & guiding of nursing students

TEACHING

CNSs work is in the concrete nursing, renewing knowledge and skills by increasing effectiveness in nurses work through EBN. Introduction to neuroscience is done by CNS orientation & web-learning site.

NCS & CLES provides results yearly to direct the needs of training. The value of Mentoring has been confirmed by the Finnish Ministry of Labour in their Quality of Work Life survey.
